

Medienkaufmann/frau at Super RTL

Each year a new candidate gets the opportunity to experience the media business at Super RTL by starting an apprenticeship as 'Medienkaufmann/-frau'.

Working in a team of young but experienced colleagues, Super RTL's trainees learn about the commercial activities of the media business in the field of youth entertainment. Apart from the support of the colleagues in the different divisions, each trainee has his/her personal mentor who helps whenever necessary.

In addition to the practical work at the company, trainees attend classes at a vocational school, which is the basis for the final exam they have to pass after 2.5 to 3 years. After successfully passing the exam in front of the German 'Chamber of Commerce', the trainees hold the state-approved degree 'Medienkaufmann/ -frau'.
